

~ About the Map ~
 This map production is made possible through a collaborative effort between the City of Prescott GIS Department & Trails Specialist, and the Prescott National Forest trails managers, along with support from local businesses; printing costs are paid for by the local business sponsors that are shown to the right.

The map is updated once a year to stay current with the rapidly expanding trail network in the region. The map date can be found on the legend on the front side of the map.

Each edition of the map features the newest trail segments on this side with close-up views of areas recently opened within the trail network.

SHARE THE TRAIL

Trail etiquette is an important part of keeping our trails fun and safe for all trail users.
 ~ Respect other users, expect other users
 ~ Be friendly and courteous
 ~ Share the trail. Ride, walk or run on the right, pass on the left
 ~ Do not use headphones on trails.
 ~ Bicyclists yield to runners, hikers, and horses. Bicyclists should stop to allow horses to pass safely.
 ~ Downhill traffic yield to uphill traffic. When in doubt, yield.
 ~ Use unpaved trails only when they are dry, not muddy or wet, to avoid leaving ruts or prints.
 ~ Warn people when you are planning to pass
 ~ Bicyclists anticipate other trail users around corners and control your speed through blind spots
 ~ Equestrians clean up after your animal in developed sites
 ~ Ride within your ability at all times

Willow and Watson Lakes Trails

The trails network around Willow and Watson Lakes contains both rugged rocky terrain in the Dells and easy flat sections of trail around some sections of the lakes. A great variety of loops can be constructed within the Dells network to eventually circumnavigate either lake. Trails shown in white with black outlines are technical hiking trails requiring good balance, strength and stamina to complete, while green and generally level. Please plan accordingly for your skill level! (see front side legend for more information on trail designations)
