

KNOW BEFORE YOU GO.....

Expect 90-minute Delays Memorial Day Weekend

ABOUT THE PROJECTS

Motorists traveling on I-10 to and from California or on I-17 heading north to Flagstaff this Memorial Day Weekend should allow extra travel time.

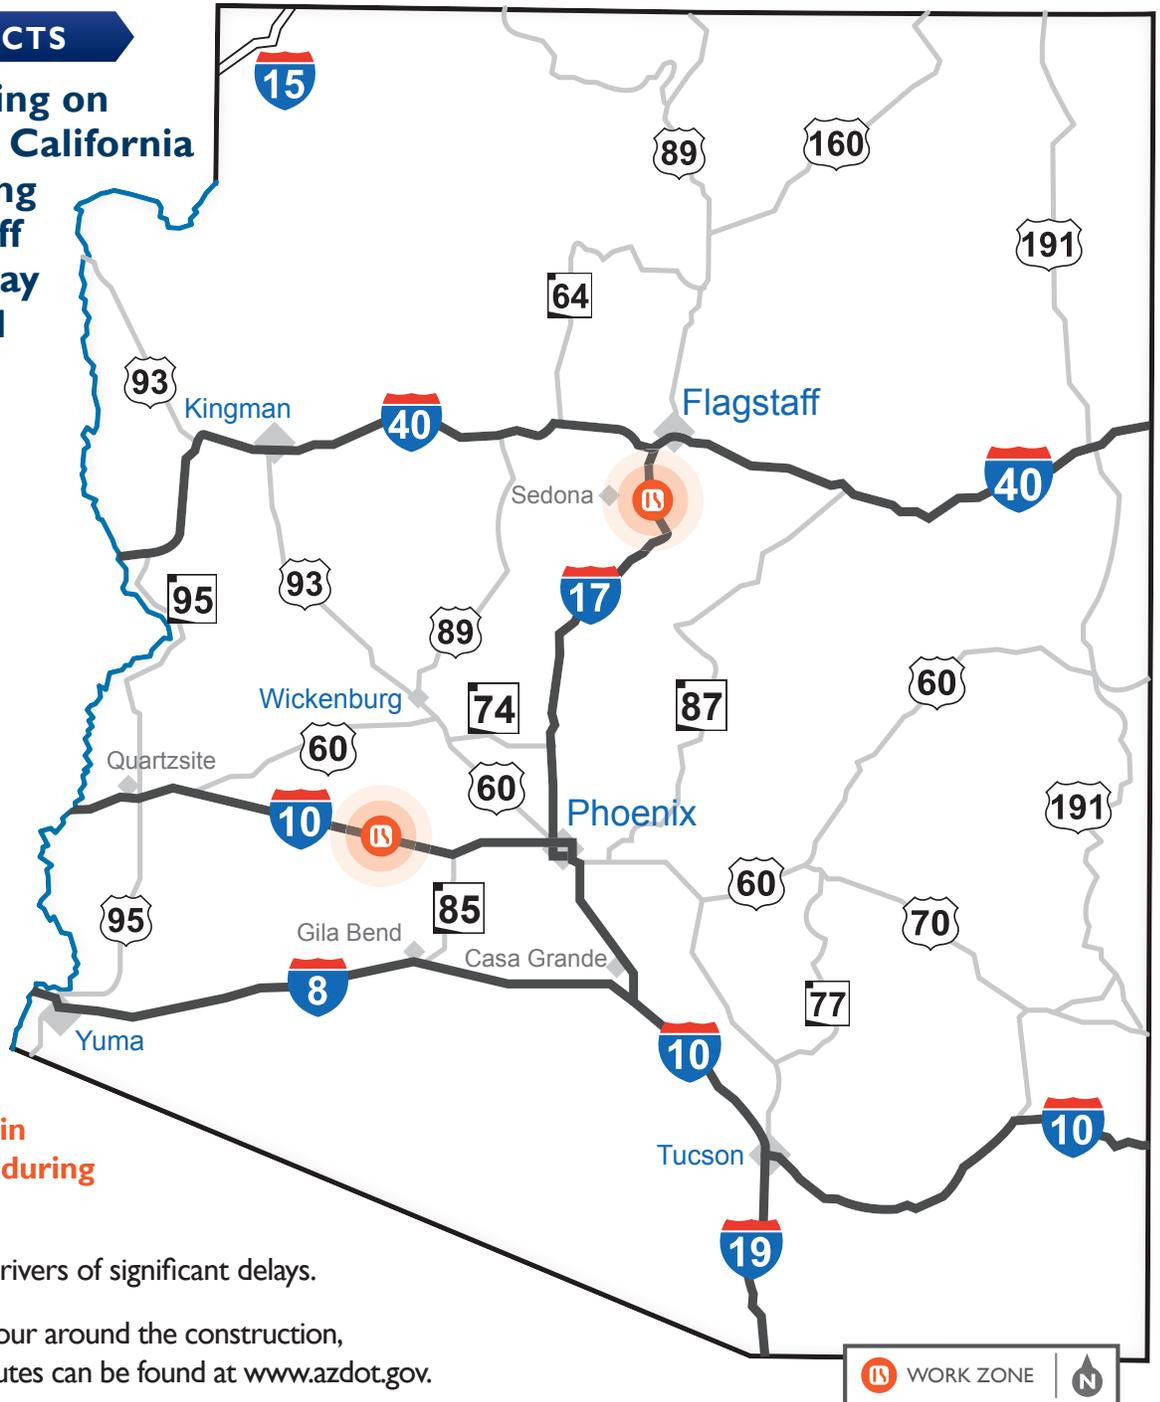

Interstate 10 at Hassayampa River bridge 40 miles west of downtown Phoenix: Reduced to one lane in both directions for bridge improvements.

Interstate 17 at Munds Park 20 miles south of downtown Flagstaff: Reduced to one lane in both directions for bridge improvements.

Holiday travelers should expect delays in excess of 90 minutes during peak travel times.

Message signs will alert drivers of significant delays.

While there is no set detour around the construction, options for alternative routes can be found at www.azdot.gov.

ADOT wants your holiday travel to be as safe and smooth as possible. While we hold off on highway construction during holidays, some existing work zones and lane restrictions are needed to improve your highways. Please use caution, allow extra travel time and get an early start if possible.
