Phone: 928-777-1130

Fax: 928-771-5929

A public meeting is being planned for Thursday, March 3rd, 2011 at 6:00PM at Taylor Hicks School. The goal of the meeting will be to notify area residents and interested members of the public on the status and schedule for the roadway reconstruction project through the Cliff Rose area, and will also include discussion of the history and future of traffic calming in that area and in The Meadows subdivision. No decisions either for or against traffic calming will be made at the meeting and all public comments will be one-on-one with staff or on written comment forms. This is being done to keep the meeting brief, and on topic so that all comments may be efficiently collected from the public and summarized for consideration by Council at their future meetings.

Meeting agenda:

1. Update on the status and schedule for the Rosser Street roadway reconstruction project through the Cliff Rose area.
2. Discussion of the history and future of traffic calming in conjunction with the Cliff Rose project and the future of the existing traffic calming in The Meadows subdivision.
3. One-on-one information gathering using maps and survey forms.
