

PUBLIC MEETING

ZONE 27 WATER SYSTEM IMPROVEMENTS PROJECT

The City of Prescott and design engineers Atkins North America invite you to attend a community meeting for the Zone 27 Water System Improvements Project on **Thursday, February 2 from 5:30-7 p.m.** in the **Council Chambers at Prescott City Hall.** The meeting will feature a short presentation detailing the utility upgrades and project time-frame. Questions or comments from the general public will be addressed by representatives from Atkins and the City of Prescott.

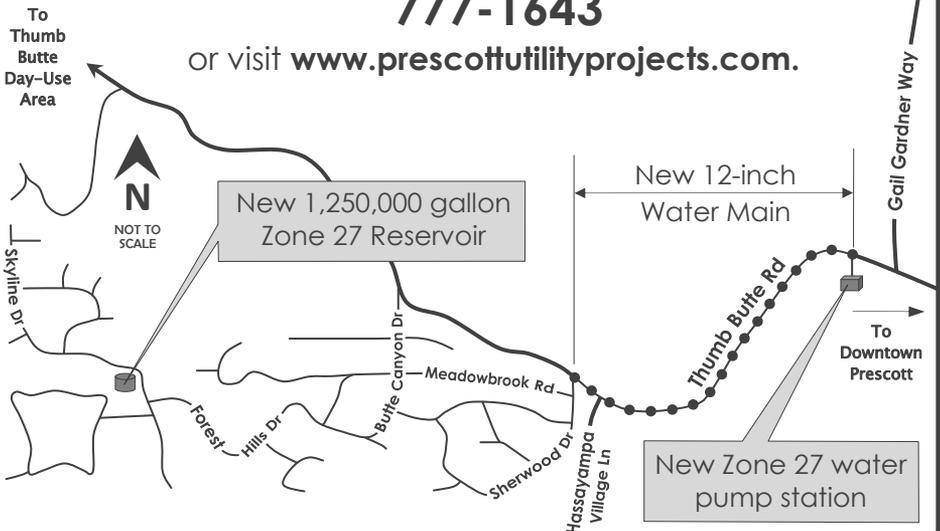

The Zone 27 improvements will dramatically increase fire storage capacity and available "fire flow" necessary to maintain a fire-safe community. Replacing the aging, undersized reservoir with a larger storage capacity reservoir will meet growing water needs well into the future. The meeting will provide information regarding:

- ✓ **New Zone 27 storage reservoir**
- ✓ **New Zone 27 pump station**
- ✓ **New utility upgrades**
- ✓ **Reservoir security and landscaping improvements**
- ✓ **Wildlife corridor accommodations**
- ✓ **Next steps in the project**

For more information, please call project staff at

777-1643

or visit www.prescottutilityprojects.com.

Persons with disabilities may request reasonable accommodations by calling project staff at 777-1643 or email jeff.low@prescott-az.gov. Requests should be made as early as possible to allow for appropriate accommodations.
